## Federal Motor Carrier Safety Administration

### Roadside Inspection

This module provides summarized data for five fiscal or calendar years including current year to date information on all roadside inspections conducted on motor carriers that transport property or passengers in interstate or intrastate commerce.

A roadside inspection is an examination of individual commercial motor vehicles and drivers by a Motor Carrier Safety Assistance Program (MCSAP) inspector to determine if they are in compliance with the Federal Motor Carrier Safety Regulations (FMCSRs) and/or Hazardous Materials Regulations (HMRs.) Serious violations result in the issuance of driver or vehicle OOS orders. These violations must be corrected before the affected driver or vehicle can return to service.

### Summary of Roadside Inspections in Illinois

Roadside Inspection Activity (Illinois)	FY 2009		
	Fed	State	Total
Number of Inspections	471	78,216	78,687
I. Full	269	18,051	18,320
II. Walk-Around	29	28,696	28,725
III. Driver Only	20	30,948	30,968
IV. Special Study	52	188	240
V. Terminal	101	281	382
VI. Radioactive Materials	0	52	52
